Continuing Medical Education

Third Annual Clinical Psychopharmacology Conference

The UC Irvine School of Medicine *Third Annual Clinical Psychopharmacology 2025 Conference* provides an updated and targeted approach to the treatment of common psychiatric disorders related to depression, anxiety, bipolar disorders, psychosis, insomnia and others. This course provides valuable and evidence-based updates for psychiatrists, psychiatric nurse practitioners, as well as advanced topic learning for primary care providers who wish to improve their knowledge with use of psychotropic medication management in the busy primary care setting. Students and psychiatry residents are welcome to attend and participate in specially designed "Resident Corner" sessions.
