

**Paige Hutchison, PharmD**

**Ambulatory Cardiology Clinical Pharmacist, UCSF Division of Cardiology;  
Assistant Clinical Professor,  
UCSF School of Pharmacy**

Paige Hutchison, PharmD is an ambulatory care pharmacist at UCSF specializing in cardiology. She manages and adjusts cardiovascular medications for conditions such as hypertension, heart failure, and hyperlipidemia. Working in close collaboration with the cardiology care team, she helps optimize therapy, enhance outcomes, and support effective chronic disease management in the outpatient setting. With a strong emphasis on personalized medicine, she tailors treatment plans to each patient's unique needs and goals.
